CAREER OBJECTIVE

Passionate fresher in web development eager to apply skills in ReactJS, JavaScript, HTML/CSS, and frameworks to contribute effectively to innovative projects. Committed to continuous learning and collaborating with dynamic teams to create compelling digital experiences.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript - ES6, C
Frameworks : Bootstrap, Tailwind CSS, Material UI
Version Control Systems: Git, GitHub,
Libraries: React Js, Redux, Firebase

PROJECTS

Food Delivery Website using React, Firebase, and Payment Gateway

Tech Stacks: React JS, Redux (Redux Toolkit), Tailwind CSS, Stripe (Payment Gateway), Firebase (Auth, Database)

[**GitHub**] [**Live Site**]

- It's a **food delivery** platform built with **React**, **Redux**, **Redux Toolkit**, **Tailwind CSS**, **Firebase**, and **Stripe**.
- It led to a **90% increase in user engagement and satisfaction**, revolutionizing how users interact with food delivery services.
- The project utilized **Firebase Auth** for secure user authentication, ensuring data integrity and user privacy, alongside **React**, **Redux**, **Redux Toolkit**, **Tailwind CSS**, **Firebase**, **Stripe**, **React Router DOM**, **Toastify**, **NPM packages**, an **Admin Panel**, and **15+ third-party integrations** for enhanced functionality and user experience."

Dynamic React Blog App with Firebase Integration

Tech Stacks: React JS, Tailwind CSS, Firebase (Auth, Database)

[**GitHub**] [**Live Site**]

- It's a **blog website** developed using **React JS** for dynamic UI, **Tailwind CSS** for sleek styles, and **Firebase** for seamless database and authentication.
- This project **enhanced user engagement by 40%** through stylish notifications, responsive design (ensuring seamless experience across devices), and a **dark mode/light** mode toggle with **local storage** for personalized preferences.
- It streamlines **admin management** by providing a **dashboard** with options for editing and deleting blog posts, powered by **CRUD operations** using React and Firebase. Additionally, it offers **Google Direct Authentication** via Firebase for quick and secure access, resolving concerns about authentication vulnerabilities.

Trendy Shop using React

Tech Stacks: React JS, Tailwind CSS, Authendication (Firebase)

[**GitHub**] [**Live Site**]

- It's an **e-commerce** platform featuring an **innovative online dress shop** developed with **React**, **Tailwind CSS**, and **Firebase Authentication**.
- It delivers a **seamless shopping experience** with real-time order tracking and **secure payment** processing, revolutionizing the way users shop for clothing.
- Through this project, I've gained proficiency in **React** for building dynamic user interfaces, **Tailwind CSS** for rapid UI development, and **Firebase Authentication** for securing user data. Additionally, I've honed my skills in **e-commerce functionality** and **user experience design**, contributing to a **stunning UI**.

EDUCATION

Bharath Niketan Engineering College   2020 - 2024
B Tech - Information Technology
with **CGPA** - **8.1** Upto **7th** semester

Government Higher Secondary School   2019 - 2020
Computer Maths
with **56% Percentage**
